

GLINTT (Global Intelligent Technologies)

<http://www.glintt.com/en/glintt>

Bilateral Meetings

- Wednesday 14:00 h - 18:00 h

Description

GLINTT has become a major contributor for innovation in assisted living technologies and intelligent systems in healthcare with a major projection in Portugal and Spain but increasingly internationalization. Glintt - Global Intelligent Technologies - is a multinational technology services, consulting and outsourcing group, and one of the biggest Portuguese IT companies, listed in the NYSE Euronext Lisbon, under the symbol GLINTT. With more than 20 years of experience, GLINTT is a leading player on the healthcare IT services, offering a proprietary technological solution running on +200 hospitals and clinics. The comprehensive scope of clinical and administrative processes covers +20 000 hospital beds, serves +15 000 physicians and support the issuing of +1M prescriptions per month. On the pharmacy sector, +12 000 pharmacies in Iberia use management software installed and maintained by GLINTT, but the full suite of services address various needs, ranging from store architecture, robotics and infrastructure to consumable goods logistics and training. As key differentiator, our +200 functionally specialized consultants combine a set of deep skills on life sciences - with degrees on pharmacy, nursing or biomedical - with technology expertise on application and infrastructure services.
