

CINTESIS - Center for Health Technology and Services Research

<http://www.cintesis.eu>

Bilateral Meetings

- Wednesday 10:40 h - 13:00 h
- Wednesday 14:00 h - 18:00 h

Description

CINTESIS is a R&D center hosted by the Faculty of Medicine of the University of Porto.

It integrates health technologies development and assessment research (e.g. ICT and biomaterials) with clinical and health services research, aiming the acceleration of innovation in healthcare across a spectrum of activities that span from knowledge discovery and product design to the delivery of new medical products, devices and services.

Although the unit will find a solid host institution at the Faculty of Medicine, University of Porto, its management and research structures and labs will be mostly decentralized, involving other higher education institutions such as ICBAS, ISEP, ESEP and Aveiro Algarve and Madeira universities, besides several hospitals and healthcare providers.

Organization Type

University, Research

Areas of Activities

Medical devices

Information and Communication Technology

Other

Request

Biotechnology expertise

Biotechnology expertise in the interface of immunotherapy

Cooperation Offered

1. Research co-operation

Cooperation Requested

1. Technical co-operation
2. Research co-operation
