- Wednesday 14:00 h - 18:00 h

### Description

HEARTGENETICS is a Portuguese **biotech & data-driven** company developing CE-IVD certified medical devices (AI tools and genetic testing kits) that make **genetic testing actionable & cost-effective**.

The innovative and easy to use clinical decision support and reporting system, **HEARTDECODE®**, allows genetic laboratories to perform comprehensive, simpler to read and more straight to the point genetic reports, supporting accurate diagnosis, prognosis and disease risk stratification.

**HEARTDECODE®** is already certified as a CE/IVD medical device.

Associated with the HEARTDECODE® system, the HEARTGENETICS team has developed a set of innovative **CE-IVD genetic testing kits for cardiovascular diseases** that can be prescribed in several areas, such as **Obstetrics, Cardiology, Cardio-Oncology, Nutrigenetics and Pharmacogenetics**.

HEARTGENETICS' labs are ISO NP **9001:2008** and ISO **13485:2012** certified for Quality Management System and applies an External Quality Assessment program from **UK NEQAS**.

HEARTGENETICS' team is a highly qualified team of PhDs, engineers, entrepreneurs and MBAs to cover all aspects of its business from genetics, genomics and informatics to management, economics and marketing.
