Bilateral Meetings

- Wednesday 10:40 h - 13:00 h
- Wednesday 14:00 h - 18:00 h

Description

Exogenus Therapeutics (Exo-T) is a biotechnology company dedicated to pre-clinical and clinical development of advanced therapies for skin diseases. Exo-T envisage becoming a company of reference for the use of exosomes as a treatment tool for skin lesions, including wound healing. The company is presently developing its first product, Exo-Wound, which is derived from Umbilical Cord Blood for the treatment of chronic wounds, which affect millions of people worldwide.
