Bilateral Meetings

- Wednesday 10:40 h - 13:00 h
- Wednesday 14:00 h - 18:00 h

Description

IS4H licences and develops interactive auscultation technologies for medical education, telemedicine and computer-assisted decision.

Organization Type

Company

Organization Size

1-10

Founding Year

2013

Areas of Activities

Information and Communication Technology

Idea

Point-of-Care Digital Auscultation for Telemedicine Environments

We have developed a point-of-care, unobtrusive digital auscultation technology, adequate for telemedicine and computer-assisted decision environments. Searching for cloud-based medical service providers, interesting in creating a regional pilot to demonstrate the medical impact of the technology, and to study adequate business models for such remote auscultation services.

Keywords: Digital Auscultation Telemedicine Pilot Cloud-Based Medical Services

Cooperation Offered

1. Technical co-operation

Cooperation Requested

1. Technical co-operation
2. Investment/Financing

Request

Searching for Distributors and Investors for IS4Learning

Medical simulation technology to teach and certify auscultation skills to medical students and practitioners

Keywords: Auscultation Medical Simulation Certification

Cooperation Requested

1. Distribution
2. Investment/Financing
