

Flanders Innovation and Entrepreneurship

<http://www.vlaio.be>

Bilateral Meetings

- Wednesday 14:00 h - 18:00 h

Description

Flanders Innovation & Entrepreneurship

Flanders Innovation & Entrepreneurship is a government agency, charged with implementing the economic, innovation and enterprise policy in Flanders, the Dutch speaking northern part of Belgium. We do this in collaboration with numerous partners, in particular the Innovation Centers and Flanders District of Creativity.

We focus on:

-stimulating growth and innovation

We support companies financially through grants to grow, transform and innovate, ex. the SME portfolio.

-promoting entrepreneurship

We work together with strong partners who can guide SMEs - prestarts and start-ups - to growth and aquisition and we support networking focused on growth companies.

-supporting clusters

We support organisations that stimulate collaboration and dynamics within a group of companies and knowledge institutions.

-promoting environmental factors

We facilitate i.a. the development of industrial premises.

Offer & Request

Enterprise Europe Network in Flanders - Connect & Network with Flanders' Care

Flanders' Care is the dynamic and ambitious Multi-stakeholder framework set out by the Government of Flanders. Its mission statement is to measurably improve the quality of care through innovation and responsible entrepreneurship. Flanders' Care connects with all stakeholders of the Healthcare industry (knowledge centers, care users, financial investors, care providers, entrepreneurs and governments).
